

Vault Decryption Kit

This PDF is required to recover data from your 2FAS Pass Vault. 2FAS Pass does not allow anyone, including us, to access your data in the app or backup file. Only you can access it with your Secret Words and Master Password, which are contained in this document.

To decrypt your 2FAS Pass Vault backup file:

1. Install 2FAS Pass on your mobile device.
2. Go to recovery mode on the welcome screen and follow the instructions.
